

# Art Creation

## What type of art should students create?

1. The art must be on the topic of human trafficking.
2. The pieces must be able to be uploaded to Guria's virtual gallery. This is how your art becomes a part of the global art exchange! Each participating school uploads their own art and browses other school's art online to select and print out pieces from around the world to add to their own community's exhibit in February.

Other than those two rules, students are encouraged to use the full-range of their creativity when creating their art pieces!

Some examples:

- |                      |                    |                                       |
|----------------------|--------------------|---------------------------------------|
| • Poetry             | • Short Story      | • Fashion                             |
| • Collage            | • Dance            | • Musical                             |
| • Photography        | • Rap              | Composition                           |
| • Spoken word poetry | • Digital Art      | • And whatever else you can dream of! |
|                      | • Creative Writing |                                       |

A few examples of art pieces are provided below to spark inspiration. If you'd like to see more, visit <https://tinyurl.com/past-art2018> to see a selection of art created by past participants in FREEDOM NOW.

(Some of the following pieces of art have been created by children Guria works with, and some were created by artists found online)

## YOU CAN...

*Create a piece about your emotions upon learning about trafficking...*

Create a piece about your own experience...

Create something that would give hope to trafficking victims...

Use color or lack of color...

Use Words...
